Email address:

Name of applicant & position in school:

1. What criteria is applied when hiring transport for school trips in the UK and how is the transport company chosen?
2. What criteria is applied when selecting a tour company for a long haul school trip such as skiing?
3. How does the school check if the driver/s on a long haul trip are suitably accommodated to reduce driver fatigue and does this check form part of the risk assessment?
4. It is important that adequate policy documents are in place and are reviewed at least once a year. A transport and safety belt policy, detailing how enforcement of seat belt wearing, emergency procedures and how staff are trained in these areas should ideally be in place. Can the school confirm that it has a policy in place and willing to provide a copy to BUSK?

(Schools that are in the process of producing a policy can still apply for membership and can also request free assistance from BUSK to necessitate this process).

5. How does the school's procurement for home to school transport work and how is this managed (if applicable)?

BUSK's safety standards are high. Schools that meet our standards are provided with a certificate outlining the exemplary safety measures the school has taken. Schools can cancel membership at any time by emailing BUSK and confirming removal of any BUSK certification on websites and on marketing material. BUSK does not share or sell any information provided to it with any third party.
