

Safety Charter

Safeguard Coaches

We guarantee to provide properly maintained vehicles, driven by fully qualified, skilled drivers that undergo regular training. Our drivers are not 'just drivers'. They are highly trained to deal with emergency situations should they arise.

The driver's instructions should always be followed when boarding and during the journey. Party leaders of a school group or where children are part of the group, may be asked to sit in specific seats or areas of the coach. This is for safety reasons. Coach drivers are legally in charge of the coach and therefore their instructions must be followed.

Anyone in charge of children is legally responsible for ensuring their safe journey and ensuring all safety belts are worn correctly at all times. Baggage must be stowed safely and not block aisles or exits because this can seriously hamper an emergency exit. Please do not consume food or drink on board and observe our no chewing gum policy. We would be grateful if rubbish is removed when leaving the coach please. Thank you.

You are travelling with a BUSK Benchmark accredited member. Benchmark is the UK's first and only star rating for the coach and minibus industry.
